

Our “room names” Philosophy

inspired by greek Mythology

A long time ago up in the mountain of Olympus, some amazing things took place, unlike anything that had ever happened before anywhere in this World ...

*It all started when **Zeus** -the king of Gods and mortals- received a prophecy predicting that his mistress Oceanid Metis (not his wife... **Hera**) would give birth to an unusual child, who would be as wise and brave as Zeus himself .*

*His daughter finally leaped from the divine head of Zeus by help from **Hephaestus** - God of fire- and became the Goddess of wisdom, knowledge (owl&olive tree symbol) and strategy - **Athena**.*

*Later on, when Cecrops founded the city that would later be called ATHENS , he could not decide who should be its patron , Athena or **Poseidon** -God of seawater with his trident.*

*Other respected members of the 12 Olympians who inspired us while renovating and decorating our rooms are **Apollon**-God of music and arts carrying a lyre ,**Hermes**-messenger of the Gods who spreads the news around wearing winged cap and sandals, **Artemis**- Goddess of the hunt & of course **Venus** -the charming goddess of love & beauty.*

*Because of this feminine beauty under the guidance of God **Ares**, many wars appear during old times in the country ..one of them started in Troy and ended with an unexpected long journey for Odysseus as described in the **Odyssey** Homeric Epic Poem .This journey by ship took Odysseus 10 years to reach Ithaca, one of our islands. Our guests can “travel” to the Greek islands as well , being accommodated in the island style room called **Cyclades** (inspired by this complex of Aegean islands in blue & white colors)*
